LLOYD GEORGE IS REBUKED BY HAIG HISTORIAN

Biographer Declares Former War Premier Undermined Field Marshal

LONDON, Feb. 2.—Declaring that David Lloyd George throughout his career as a statesman Prime Minister worked against the British command-in-chief, Field Marshal Sir Douglas Haig, although he was unwilling to dismiss him, Captain Alfred Duff Cooper, D.S.O., financial secretary to the war office, made a strong plea today for a truce in the traditional rivalry between soldiers and politicians.

"One of the greatest mistakes made in the last war by the British government was that it discouraged the commander-in-chief, but he had the courage to do his duty," said Mr. Duff Cooper. "Mr. Lloyd George, the greatest statesman of the century, thought the war was lost, but he was afraid of public opinion and did not dare to place somebody else in the position."

Incidentally the war office secretary, who served in the Great War, declared he thought the execution of Nurse Edith Cavell by a German firing squad on Oct. 12, 1918, was justified on military grounds.

"Miss Cavell," he pointed out to his audience of army officers, "was a noble and courageous woman when the Germans were entitled to execute according to the rules of war. But any politician could have told them the execution was going to arm another 100,000 men against Germany."

CANADA MAY BE HELPED AS U.S. PROSPERS

Dominion Predicted Will Swing Along With States

TORONTO, Feb. 2.—M. President Franklin Roosevelt monetary policy has the effect Canadian financial leaders believe it will have, Canada will swing along to better times arm-in-arm with the United States. The Roosevelt "modified dollar," and its accompanying stimulus to the economy were regarded today as likely to aid Canada in various ways.

There may be a profitable diversion of the flow of Canadian goods from London to Washington, and even if London rises to the occasion and retains a higher gold price the Dominion will profit from the Roosevelt policy.

REMONETIZATION OF SILVER IS KEY TO RECOVERY

WASHINGTON, D.C., Feb. 2.—Making a strong plea for the remonetization of silver and stating that until the nations of the world who have been on a silver basis are brought back into the ranks of the world's traders by having their purchasing power restored there can be no real prosperity for any nation, Hon. William E. Borah, United States senator from Idaho, made one of the strongest appeals for support for the program of President F. D. Roosevelt along these lines ever heard in the U.S. capital.

He was speaking in the bill which would provide for a better use of the monetary gold stock of the United States, and in reply to Senator Reed of Pennsylvania and gave a reasoned analysis of the financial situation confronting the world today.

"There are two schools of thought with reference to the monetary question and they are ranging themselves on either side in accordance with the views which they entertain. There is one body of men who hold that we should have a larger volume of circulating medium, a larger volume of currency, believing that this will result in an increase in the price of commodities. On the other hand, there are those who do not believe that we should escape from our present dilemma or from the economic catastrophe which has engulfed us by legislation in any respect relative to money. They do not accept the view that our enlarged volume of money will augment the price of commodities or that, if it would have that effect, that it would not be a wise or just thing to do," he said.

"I am a believer in the first proposition. I feel quite sure that we shall not see a rise in the price of commodities in this country until we increase the volume of the circulating medium. That, of course, gives rise to the question of sound and unsound currency, of sound and unsound money. No one desires unsound currency. No one desires unsound money. No one desires unsound currency. No one desires unsound money."

WOLFE LOLLAPALOOZES WITH FORD V-8 TYPE MORTS

STRENGTH OFFSETS THEORETICAL RISE IN WOLFE WEAKENED

London, Paris and Rome Expect Few Fluctuations Until Stabilization Against Foreign Currencies Comes.

LONDON, Feb. 2.—President Roosevelt's devaluation plan resulted in virtual abandonment of the French franc as the price for fixing gold on the open market in London at least for today.

There was such demand for 184,000 of gold at a price of 130 shillings, 6 pence—a new record high—was fixed on "supply and demand."

The dollar after a weak opening started a spectacular advance to \$24 1/2 at noon, 3 1/2 cents net higher.

The franc, in considerable demand, dropped to 70.60 on the pound against Thursday's quotation of 73.30, buyers needing a supply to purchase gold from France for shipment to United States.

LONDON, Feb. 2.—The new United States "lightweight" dollar held its own in the world money market of London. Street trading yesterday and strengthened, after earlier uncertainty, to close unofficially at 44 1/2 in sterling, and 1 cent weaker the Wednesday.

The dollar's strength ran counter to the theory the higher gold price would depreciate the dollar. It was followed by the pound, thereby aiding United States exports against the dollar, working on stronger currencies.

Rome Exchange Rate Drops

NEW SENATORS OBJECTING TO ADJOURNMENT

Many Members Left Before Absence Motion Was Produced

OTTAWA, Feb. 2.—A surge of opposition to long adjournments and inactivity in the Senate arose last night on the motion to adjourn until Feb. 20, and it took nearly half an hour's debate before the motion was carried. The movement was led and upheld first by the younger members, then spread to the veterans.

Senator A. D. McLean, Vancouver, started the ball rolling yesterday afternoon when he urged that some other member with experience in both houses and in the government, give a clear-cut statement of the duties and importance of the upper house so that the people would not get a wrong impression from the long adjournment.

He had come a long way to attend, he said, and was surprised to find that there was little to do. "Surely there must be some real work for us to do here," he said.

Senator J. M. Macdonald, Bedford, suggested the adjournment be taken only until Tuesday next, and that committee be appointed to investigate some phases of the nation's problems.

The information was that there would be no business for us to do here," he said.

V. U. MINER IS LLOYD WINSTER TRADES HEAD

President Faces Business in Canada is Headed for Prosperity

LLOYDMINSTER, Feb. 2.—V. U. Miner was re-elected president of the Lloyminster Board of Trade at the annual meeting, Wednesday.

Speaking on business conditions in Canada today, the president, in his annual report, felt that an improvement in the general trade was near, as was indicated by the following figures: (1) Between February and November, 1933, industry increased 48 per cent; (2) Wholesale prices have risen 10 per cent with no appreciable rise in the cost of living; (3) purchasing power is up 12 per cent; (4) unemployment has dropped from 1,044,000 to 785,000; (5) wheat at Lloyminster has risen 43 cents as against 31 cents a year ago.

In closing Mr. Miner said, "Taking into consideration all the statements I have made, I feel safe in saying that in my opinion Canada has at last turned the corner. Her economy is now on a sound basis, and under control and we are on board safely feeling that the commerce of the world, with its careful management, will surely bring us to the day of our prosperity, success and contentment."

"So I am sure we can say with confidence that the worst of the storm is past and the weather is gradually clearing away."

In conclusion permit me to state that we try and profit by our experience and education in the past. After all, experience is a wonderful teacher.

The local board voted to become affiliated with the Alberta Board of Trade of northeastern Alberta. F. Crowley was appointed delegate to the council.

The following officers were elected: President, V. U. Miner; vice-president, F. I. Crowley; treasurer, J. V. Anderson; secretary, J. V. Anderson; executive, J. D. Hamilton; auditor, G. M. Miller; H. C. Messing; G. M. Cook, R. G. Chapman and J. H. Hannon; critic, F. I. D.

SANKEY SPIRITED TO SOUTH DAKOTA FOR KIDNAP TRIAL

Will Face Justice for Abduction of Boettcher, Denver Capitalist—Regina Bank Robbery Laid to Sankey

CHICAGO, Feb. 2.—Attempt to link him with the fatal abduction of the Linbarger baby unsuccessful. Verne Sankey, notorious underworld outlaw, was started to Sioux Falls, S.D., last night to stand trial for the kidnaping of Charles Boettcher, 22, Denver capitalist.

Guarded by five agents of the department of justice the former railroad engineer of Melville, Sankey was loaded aboard a Milwaukee road train and started for Sioux Falls.

The move came swiftly at the end of 30 hours of grilling by federal agents concerning the kidnaping of Charles A. Lindbergh, Jr., during which it was announced nothing could be made public Sankey confessed, however, that he and his gang kidnaped Boettcher last February for \$50,000 ransom and young Haskell Bohn of St. Paul later for \$125,000.

"The chances for conviction in the Boettcher case are better in South Dakota," U.S. District Attorney Dwight H. Green said. Penalty for kidnaping is life imprisonment.

Regina Bank Robbery Charged To Sankey
REGINA, Feb. 2.—Detective Verne Sankey, former Melville, Sask. man now under arrest and facing kidnapping charges in the United States, held up the Albert street branch of the Royal Bank here in 1931, is driven by local police on information given them by a Regina taxi driver.

The taxi man, George Sankey, a companion, believed to be George Alcorn, was held up on numerous occasions for two weeks leading up to the holdup. On these trips the driver overheard conversations between the two which later linked them with the robbery. On several occasions the pair were seen to enter a Regina hotel, the bank that was robbed later, and were apparently innocently looked over the situation.

OTTAWA, Feb. 2.—It was announced yesterday by the railway commission that there will be no surcharge on freight, express or passenger business during the period from Feb. 1 to 14, inclusive. This corrects information given out by the board Wednesday.

VOLUNTARY CURTAILMENT?

It seems to be agreed that western farmers

will not be forbidden by law to sow as many

acres as wheat next spring as they sowed last

spring. They are to be urged to cut down the

take the advice will not, apparently, be haled

into court, fined, or sent to prison.

Neither will those who accept the advice be

Celebrating both its centenary and the

progress, it is achieving success in the

"sound money" and inflated currency to the

public needs, the Australian state of Victoria is

planning a public celebration designed to open

the eyes of the world. The celebration will

take place in the fall of this

year—when it will be early

autumn in the state of Victoria.

A \$75,000 air race from

England in which Kingfisher

will be the winner, will take part;

a \$25,000 golf tournament; a

tennis tournament; a \$50,000 added prize

money; historical pageants;

international athletic com-

petitions; and a \$125,000 war

ship; international band contests; a sea-

farers and shipping exhibition, an agricultural

exhibition and an industrial and art exhibition

the things now being arranged for. Boulevard

After him, a hundred years ago, came John Bat-

man, who built a few more houses, and then

came the first white man to see the country.

It is a fact that the first white man to see the

country was a convict, and that he was a

FOUR FISHERS SAFE AFTER ICE FLOE RIDE

Huddled on Crumbling Ice
Quartet Battles 28 Hours
in Gale

RAY CITY, Mich., Feb. 2.—A thrilling account of a 28-hour battle with the elements while they huddled on a crumbling ice floe adrift in stormy waters of Lake Michigan, was told last night by four fishermen who walked ashore late in the afternoon after weather had almost despaired of their survival. The fishermen, Anthony, Abner, John Swartz, Charles King, Jr., and his brother Lawrence, walked ashore at the village of Quanshue, 10 miles east of Bay City, when the wind finally drove the floe toward land.

The air frequently is smoother for flying when the sky is overcast than when the sun is shining brightly, due to the fact that "bumps" are caused by columns of heated air rising from the earth.

INTIMATE GLIMPSES AND
INSIDE STUFF ON THE
MOVIE COLONY
By DAN THOMAS.

HOLLYWOOD, Feb. 2.—A talk with George White, known for years as a producer of New York musical shows, convinces me that we long have been overlooking one of the most direct roads to motion picture success. That road is via George White's "Scandals."

While himself now has become a film producer and is transplanting his "Scandals" to the silver screen. And the list of those who have starred in his shows reads like a Who's Who of the movie world.

That's where Hollywood gossips, whether a rumormonger is being fostered by the dapper movie actor, and if so, with whom. Here you see him with Miss Anderson, when they appeared at Aquia Caliente recently.

First it was the bright blonde Ida Lupino, and now it's another blonde, Betty Anderson, with whom Jack La Rue has been seen frequently.

That's where Hollywood gossips, whether a rumormonger is being fostered by the dapper movie actor, and if so, with whom. Here you see him with Miss Anderson, when they appeared at Aquia Caliente recently.

like a blue book of the entertainment world.

Among them are Dolores and Helene Costello, Ruth Selwyn, Dorothy Sebastian, Louise Brooks, Moran and Mack, Ann Pennington, W. C. Fields, Winnie Lightner, Kate Smith, and numerous others. Some of this group now have retired but all rose to the top before so doing.

And so we now are nominating White for a place along with Muck, Senoff, D. W. Griffith, Cecil B. DeMille, and Hal Roach as the maker of stars.

NO-MAKER IN THE RING
To decrease an increasing wage line a few inches, Ramon Navarro has taken up boxing in a serious way. Well, at least he's taking his lessons from Mike Cantwell, former trainer for Jim Jeffries and now Max Baer's trainer.

SAD BOAST
All of which reminds me that Lionel Barrymore's big heart is shining bright. Well, at least he's taking his lessons from Mike Cantwell, former trainer for Jim Jeffries and now Max Baer's trainer.

NO LEG SHOW
And now Jean Connor, newcomer on the UKO list, arrives to declare that she intends using her legs solely for support and not for display purposes. The reason Jean won't show off her legs is because she has an excellent figure.

"To do so excellently would get me typed for those scantily garbed girls, and I want to play more important dramatic roles," she declares.

"I'm not ashamed of my body and I'll show as much of it as is necessary for legitimate dramatic reasons. Otherwise, I intend to crossdress."

FAMED PIANO POUNDER OF KLONDIKE DAY

Philip Gershel Played
When "Lady Lou's" Dan
McGrew Was Shot

Old "songbirds" from the Yukon are getting a great kick out of the following telegraph story from Regina. They admit it's a good story, but they point out that Dan McGrew was never shot, and in fact wasn't even Dan McGrew.

BEAUTY HINT
Here's a tip for girls, particularly a pattern for short fingers. Pat Harrison, recently imported English actress, always leaves a little space between her nail polish and the cuticle on the sides of her fingers. She says it gives her fingers a longer and more slender appearance.

COOL SEAT
While working in a chignon negligee the other day, Carole Lombard sat down on a chunk of prop ice to rest—but that particular chunk happened to be the real thing.

THE WRONG "GIM"
Ida Lupino's favorite hangout during her off hours is the studio gymnasium. The other day she went shopping for a new gym outfit. "I'd like a pair of shorts for my gym," she told the salesgirl.

AND WHEN SHE GETS BACK!
As far as W. S. Van Dyke, prominent director, is concerned, there really is something to that old proverb about "absence makes the heart grow fonder." Every day since Florine McGreevey has been visiting her home in Texas, he has sent her a basket of roses—and yellow roses, at that.

CAPITOL
With the largest cast ever seen in one picture, comes the super production "Dinner at Eight" from Broadway. The reason Jean won't show off her legs is because she has an excellent figure.

"To do so excellently would get me typed for those scantily garbed girls, and I want to play more important dramatic roles," she declares.

"I'm not ashamed of my body and I'll show as much of it as is necessary for legitimate dramatic reasons. Otherwise, I intend to crossdress."
